## ABOUT ME

I am currently pursuing a Bachelor's degree in Computer Science Engineering with a specialisation in Data Science. Throughout my academic journey, I have developed a strong foundation in key areas such as programming, algorithms, data structures, and machine learning. A deep understanding of data analytics, statistical modeling, and big data technologies, with hands-on experience in tools and languages like Python, R, SQL. I am interested in leveraging data-driven insights to solve complex real-world problems

## EDUCATION

|                                                                                                            |           |
|------------------------------------------------------------------------------------------------------------|-----------|
| <b>BRAINWARE UNIVERSITY</b>                                                                                | 2020-2026 |
| Bachelor of technology in computer science engineering<br>till 8.26 SGPA (6 <sup>th</sup> ) sem and 78.67% |           |
| <b>SAKTINAGAR HIGH SCHOOL</b>                                                                              | 2020-2022 |
| passed higher secondary(WBBSC) with 73.6%                                                                  |           |
| <b>KRISHNAGAR HIGH SCHOOL</b>                                                                              | 2014-2020 |
| passed secondary(WBBSC) with 70.46%                                                                        |           |

## SKILL

- **PROGRAMMING**  
LANGUAGES PYTHON , JAVA , C , FRONT-END TECHNOLOGIES  
HTML , CSS , JAVASCRIPT
- **DATABASE**  
MANAGEMENT : SQL DATABASE : MySQL NoSQL database
- **PROBLEM SOLVING:**  
DATA ANALYTICS PROBLEM SOLVING CRITICAL THINKING

## LANGUAGE

- English • Hindi • Bengali

## HOBBIES

- Reading non-fiction and self-development books.
- Coding and working on small web development projects.
- Blogging and writing articles online.
- Participating in tech events and hackathons.
- Traveling and exploring new places.

## WORK EXPERIENCE

- **ACADEMIC PROJECTS: Event Registration Form**

This project involves designing and developing a simple Event Registration Form using HTML. The form allows users to register for an event by filling out details such as Name, Email, Phone Number, Event Type, and Comments/Message.
